

LABYRINTH

PRESENTATION TOWER

MORE THAN JUST A DISPLAY

LABYRINTH XL PRESENTATION TOWER

More than just a display

Presentation towers are an integral part of the modern library.

We have taken the basic design of the popular Labyrinth book tower and added functionalities, while maintaining the clear design language of the Labyrinth series. The larger compartments can be equipped with metal flaps, to create storage room for storage and display.

This makes the Labyrinth XL a practical, functional piece of furniture with new features.

The Labyrinth XL Presentation Tower adapts to all your storage, filing and presentation requirements.

The flexible colour design and the many possibilities for display follow our motto „form follows function“ and make the new presentation tower Labyrinth XL a great highlight in your library!

The design of this presentation furniture is both exceptional, intuitive and natural.

All surfaces and elements are arranged logically and yet exciting.

FACTS

Product details

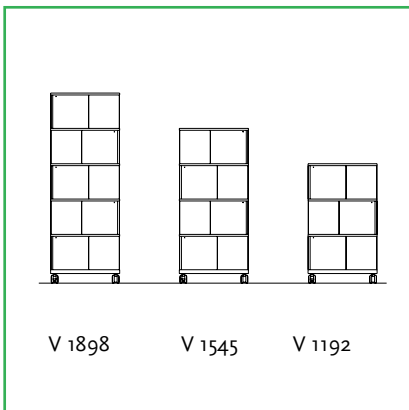

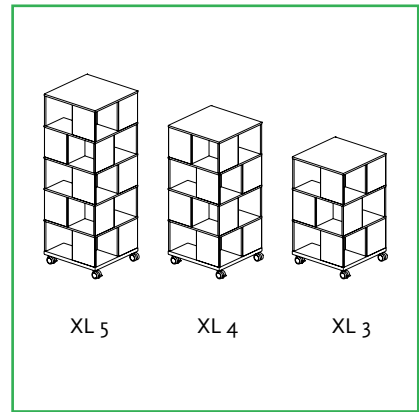

The Labyrinth XL is used for both displaying and storing media in various formats, whether it be books, magazines or folders. You can also try using our colourful accessories from our Eurobib program in the Labyrinth XL to display the media of your choice.

The Labyrinth XL is available with 3,4 or 5 levels, is delivered without flaps and is supplied with 4 castors (2 of which are lockable).

MATERIAL & COLOUR

- The body of the tower is made of 19 mm veneered/melamine coated particle board.
- The optional flaps are made of lacquered steel and can be retrofitted. The flaps are available in wide range of colours.

FOLDERS

The width is suitable for folders with the standard DIN 821-1.
Per compartment:

- 7 folders with 50 mm back
- 5 folders with 70 mm back
- 4 folders with 80 mm back

DIMENSIONS

- D690 X W690 X H1192/1545/1898 mm
- 4 compartments per level - D280 X W360 X H334 mm
